

The NEAT logo is displayed in white uppercase letters. A diagonal orange line cuts through the letter 'A' from the top left to the bottom right.

NEAT

# ALUMINIUM GATE COLLECTION

The background of the page is a photograph of a modern, light grey aluminium gate with a square-patterned mesh. The gate is partially open, revealing a white car parked in a driveway. The image is overlaid with a large, diagonal orange and white geometric graphic that runs from the top left towards the bottom right. The overall color palette is dark blue, white, and orange.

## NEAT ALUMINIUM GATES

### AN EXCEPTIONAL ALUMINIUM COLLECTION

**A superb range of contemporary styled Gates, Fencing and Balustrading crafted from low maintenance aluminium.**

**NEAT is not just our name, its our philosophy!**

Neat is a brand new company with established credentials! The NEAT manufacturing company has been launched by the Electro Automation Group. Established in 1984, The Electro Automation Group is widely regarded as Ireland's leading gate automation company and has an enviable reputation for the design, supply, installation and maintenance of high quality automated systems. Following years of research, hands on experience and reacting to growing demand, Electro has created NEAT, a new Dublin based manufacturing plant as a separate stand alone company. NEAT has its own factory, staff and using the latest automated machinery manufactures a purpose designed range of exceptional aluminium gates and railings. All NEAT products are available to trade and retail.

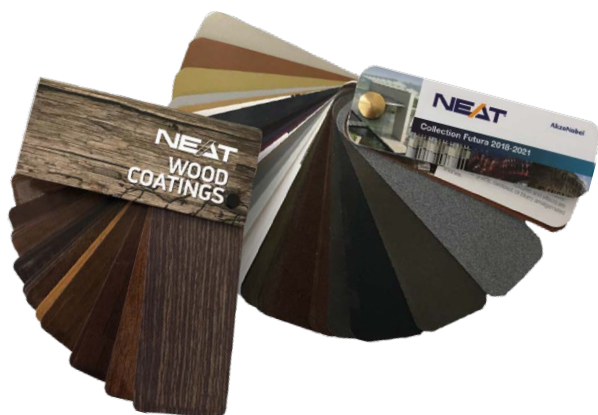

Contemporary designs are combined with traditional values, and the NEAT range offers a comprehensive range of colours and finishes, including timber effects in extraordinarily realistic finishes.

Gates are manufactured to order to exactly match client specifications in a state-of-the-art facility utilising cutting edge fabrication and assembly methodology. Our bespoke approach to manufacturing ensures that our hand finished gates are of exceptional quality. Gates are mechanically fixed and powdercoated, with paint guarantees on ocean treatment of up to 10 years. With our unique high quality stainless steel adjustable hinging systems, our extremely well made gates ensure trouble free, low maintenance operation with outstanding longevity.

Every NEAT gate can be automated using above or below ground systems, and NEAT offers the largest range of control devices that are available today, from standard remote transmitters to video intercoms, GSM switches and even biometric controls.

### Convenient, secure, low maintenance and environmentally friendly

- ✓ **Robust** - Fully developed mechanical fixings allows exceptional strength and longevity
- ✓ **Contemporary designs** to suit today's buildings
- ✓ **10 year** paint warranty
- ✓ **Lightweight**, safer to use
- ✓ **Corrosion resistant**
- ✓ **Virtually unlimited** RAL colours, designs and finishes
- ✓ **100% recyclable**
- ✓ **Repairable** - Replace a damaged section with ease
- ✓ **Stunning aesthetics** using a wide variety of designs and finishes

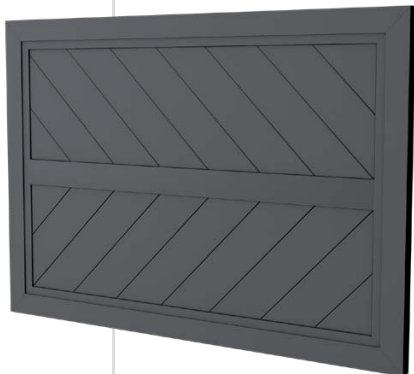

**All gates are available in a wide range of RAL colours or wood effect finishes**

**If it works well, it has to be NEAT!**

## Brandon

An elegant diagonally sheeted design based on a traditional design.

## Nevis

The traditional fully sheeted gate offering privacy and security.

## Snowden

Horizontally sheeted with inserts which offer contrast and accent highlighting.

## Scafell

A contemporary look with horizontal sheeting and a clever expanded metal vision panel.

## Donard

A modular stylistic yet cubist appearance offering lots of design possibilities.

## Errigal

A popular design fully sheeted at the base (definable) with open vision panels above.

Gates are available in swing and sliding versions, automated or manual, supply only.
